## Address

105 Elmwood Dr,  
Elmwood Park, NJ, 07407, USA

# Education

January 2022 - Present

## M.S in Computer Science

GPA - 3.0 / 4.0 cumulative

Stevens Institute of Technology,  
Hoboken, NJ, 07030, USA

June 2017 - May 2021

## B.S in Electronics Engineering

CGPA - 6.96 / 10.0

Pillai College of Engineering,  
New Panvel, Maharashtra, India

# Skills

- UI/UX
- Visual Design
- Software testing and implementation
- Design optimization
- Database management

# Technologies

- Technologies - Java, JavaScript, Objective C, HTML5, Swift, Flutter.
- Databases - MySQL, Firebase, MongoDB.
- Operating Systems - MS Windows, Android, macOS, iOS

# Chaitanya Pawar

## Software Engineer

"Highly skilled software engineer with 3+ years of experience in designing, developing, and deploying high-quality software solutions. Proficient in a range of programming languages, including C, C++, Java, .NET, and Python, as well as a range of frameworks, such as React, Vue, Flutter, Angular, and SwiftUI. Adept at working with cross-functional teams to translate complex technical requirements into user-friendly software applications. Passionate about staying up-to-date with emerging trends and technologies and committed to continuous learning and professional development."

# Experience

## August 2022 - April 2023

Stevens Institute of Technology | Hoboken, New Jersey, United States

### Course Assistant

- Worked as a course assistant for CS 501 - Introduction to Java course.
- Collaborated with course professor to develop engaging activities and assessments for students.
- Coordinated with course professor to create dynamic class schedules and activities.
- Mentored struggling students to achieve their full potential.
- Implemented rigorous assessment measures to ensure objective evaluation.
- Evaluated student work with precision and provided detailed feedback.

## October 2020 - December 2021

HotCoder Pvt. Ltd. | Wada, Maharashtra, India

### Software Developer

- Conducted in-depth analysis of business processes and translated them into technical specs for software development.
- Developed and maintained software applications in alignment with business goals, working with cross-functional teams.
- Conducted user acceptance testing and collaborated with QA team to ensure high-quality software products.
- Prioritized requirements with stakeholders and created actionable plans for implementation.
- Conducted data analysis and reporting to support business decision-making using SQL, Excel, and Tableau.
- Developed and maintained software documentation and delivered successful end-user training sessions.
- Collaborated with project managers, software architects, and developers to ensure on-time, within-budget project completion.
- Continuously improved processes with up-to-date knowledge of emerging technologies.

# Projects

## AutoThemer – macOS App

- Created AutoThemer, a SwiftUI-based tool to automate theme changes on Mac devices based on ambient light levels.
- Utilized an existing sensor present in Macs to adjust screen brightness and switch between light and dark themes.
- Designed an intuitive and user-friendly interface to configure AutoThemer's settings and personalize the user experience.
- Conducted extensive testing to ensure the functionality and reliability of the application, and incorporated user feedback to enhance the overall user experience.
- Maintained up-to-date knowledge of emerging technologies and trends, and continuously explored new tools and frameworks to drive innovation and process improvement.

## Portfolio Page – Personal Portfolio

- Designed and developed a personal portfolio website utilizing cutting-edge technologies such as JavaScript for the frontend.
- Implemented serverless code to avoid backend hassles and ensure seamless operation.
- Utilized Netlify for lightning-fast hosting and optimal user experience.
- Highlighted my skills, achievements, and experience in a visually appealing and user-friendly manner.
- Demonstrated creativity and innovation in web design and development.
